

The Seven Kabbalistic Squares

PATRATE CABALISTICE · COMPLETE · GODS WORK

A kabbalistic square is a **schedule for vibrating a planet's mantra**. One cell = one day; vibrate the mantra exactly the number of times in that day's cell, for the full cycle. **Never skip a day** (a miss = restart from day one). Begin on the planet's day, ideally in its hour, with the planet well-placed. Two paths through the same grid: a **spiritual** reading (start bottom-right, snake up the rows) and a **material** reading (start top-right, snake down the columns).

Grids are the classical kameas (Agrippa); schedules generated from them and verified against the source. Technique kept; ideology left out — take the technique, never the tribe.
